Lina45-T

45-600Z-20GED/830, B

The Lina45-T luminaires are based on the concept of Lina45 luminaires. In this case, however, the luminaires are installed in three-circuit tracks. These track luminaires with a profile width of only 45 mm are suitable for supplementing accent lighting provided by other luminaires from our product range, for example Vali55-T. With its diffused light, Lina45-T helps to balance the lighting in the room by illuminating the communication zones, especially in the sales areas. The luminaires feature a support adapter in which the luminaire can be rotated along the Z axis thus modifying the arrangement of the system and also partially direct the light in a given space.
