

## Luminaire

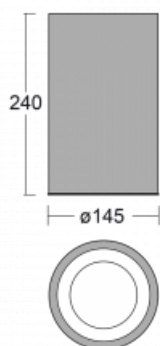

# Ture-C

58-283L-10GGD/830, W

It is a cylindrical seated luminaire that has an excellent UGR<19, which means that the luminaire does not glare. The luminaire can be used in offices, meeting rooms and thanks to special sources also in showrooms. RealWhite accentuates the white, StrongColour accentuates the selected colour and RealColour accentuates the actual colour. With Tunable White you adjust the chromaticity temperature according to the time of day. With these sources, illuminated objects look even more appealing.
